

2018 Heidi Potter Centered Riding© Open Clinic

High Horses TRC, Sharon, Vermont

August 25-26, 2018 -- 9-5:00

A Fun, Informative and Enlightening Experience!

Equestrians of all levels and disciplines are invited to discover how the Centered Riding basics of Soft Eyes, Breathing, Balance and Centering will improve their overall comfort, confidence and communication.

Morning workshops include exploration of the CR basics through interactive exercises with a “human” horse partner. These sessions are great fun and are proven to be very enlightening. Afternoons are reserved for mounted application with participants riding in small groups.

Whether you are a seasoned competitor, a walk/trot pleasure rider or a gaited horse lover, this clinic is sure to inspire you.

“The four basics plus grounding are simple and powerful. Combined with “aware” and “allow”, they are a positive influence for life as well as for riding”.

Sally Swift

Our Clinician

Heidi Potter is an internationally known and respected Instructor, Trainer, Clinician and Author. She studied with Centered Riding founder, the late Ms. Sally Swift, and is a Certified Centered Riding Clinician. Heidi’s holistic approach to Horsemanship combines the Centered Riding basics with a focus on compassion, understanding, patience and praise for every horse. She teaches a wide variety of clinics across the country and at her Vermont facility, The New England Center for Horsemanship. For more info: www.heidipotter.com.
